The Australian Woodturning Exhibition

As my first report as President of the Whitehorse Woodturners, I welcome you to the 2016 Australian Woodturning Exhibition. Stepping into Ray Dennis' shoes has been a hard act to follow, but I am pleased to announce that this year we have received more entries than has ever been recorded. We are confident that you will agree that the standard of workmanship and the innovations in design has continued and ever surpasses the high standard that we have come to expect from previous years. Woodturning is a true art form and needs to be celebrated as such.

I must first thank all the members of Whitehorse Woodturners for their support, hard work and dedication to making this best show ever. I am confident that with their continued support The Australian Woodturning Exhibition will grow by leaps and bounds. We also appreciate the assistance and support given by members of Koonung, Manningham Woodcraft, Waverley, Eastern and Forest Hill clubs who have so willingly given their time in preparing and manning this year's exhibition.

To our generous Sponsors, who have continued to support us in these difficult times, I extend our grateful thanks, and request that members, visitors, and especially prizewinners support their businesses, mentioning our appreciation. For your information the Sponsors are listed at the end of this catalogue.

The committee also wishes to thank the Judges for giving their time and expertise in conducting the arduous process of comparing the various pieces to ascertain the category winners.

We must also extend a special thanks to Stuart Watson, Dianne Bermingham and their team for organising the magnificent display of the exhibits. Your efforts are greatly appreciated.

To all our exhibitors, we thank you for entering, for without you there would not be an exhibition. We hope you have gained something from entering, either as a place winner or by the recognition of the fine quality of your work as it is displayed in this fine setting.

The committee congratulates the entrants whose pieces gained the ultimate recognition of their work by gaining a prize or award.

Please enjoy the exhibition.

Soren Grejsen
President, Whitehorse Woodturners.

Committee: Bill David, Chris Drysdale, Saadi El-Behiesi, Donal Kelman, Rachelle Leaver, Stuart Watson

JUDGES

Our thanks are extended to the judges once again for performing what is a difficult task. The committee has appointed two teams of judges, one team judging the Open and Intermediate Sections and the other the Novice and Student sections.

JUDGING THE OPEN AND INTERMEDIATE SECTIONS

Rob Low

Robert is a qualified carpenter/joiner by trade and has enjoyed a love of wood all his life. He started his working career at Miglas Joinery where he worked for over 10 years then he moved to Trend Windows. During this period he built his own home, which has many wood features throughout. He started doing market stalls on weekends selling homemade planter boxes, wooden pens and a variety of wooden handmade products.

Following a hand injury in the early 1980's, Robert embarked on a teaching degree. He graduated from Hawthorn Institute and worked at Hoppers Crossing Secondary College, then Endeavour Hills Secondary College before finally starting at Emmaus College where he taught Design Technology Wood at VCE level for 25 years until he retired in 2011. During this period he always kept up his own skills and loves being in his workshop using his lathe. He taught woodwork to adults at Swinburne TAFE one night a week, one of his more notable students being the late Don Chip parliamentarian. He also taught woodwork for junior's age 8 to 12 at TAFE during the school holidays.

Bob Morrison

Bob was born in London in 1937 and lived in Scotland from 1938 to 1966. He started woodturning at school and in his Father's shed. He worked as a plumber in Scotland and did his National Service in 1958-60 spending a year in Germany.

In 1966 Bob immigrated to Australia on the £10 Scheme and worked in Heating/Air Conditioning. He married his wife Lois in 1967.

Bob is a member of Victorian Woodworkers Association and Dandenong Woodworkers and is a Foundation Life Member of the Peninsula Woodturning Guild and Waverley Woodworkers, where he teaches woodturning. He has demonstrated widely in Victoria and has judged at the National Woodturners, Victoria National 6 times, and various clubs.

In his spare time, Bob plays Golf at Pakenham

JUDGING THE OPEN AND INTERMEDIATE SECTIONS

Bill Munt

Bill was born in Charleville, Queensland and educated at The Scots College, RAAF School of Technical Training (Aircraft Engine Fitter), Royal Melbourne Institute of Technology (Aeronautical Engineering) and Swinburne Institute of Technology (Entrepreneurial Studies). Following more than 26 years in the RAAF, Bill founded and managed a successful business specialising in business development in aviation and related high technology enterprises.

After retiring, he studied woodturning under the highly regarded Stephen Hughes before becoming a member of Peninsula Woodturners Guild in 2006. Bill served on the Committee of Management for several years. He is currently the Librarian and is a Group Leader specialising in basic turning skills and competition practices. Bill writes a regular column on woodturning safety in the Guild's Newsletter.

For a number of years, Bill has been an industrial partner with RMIT University researching all aspects of dust in woodworking workshops. The program provides opportunities for undergraduate and research students to solve dust problems using sophisticated computer models verified by practical tests in an instrumented workshop. A substantial amount of this research has been presented to audiences around the world and has been published by many professional periodicals.

JUDGING THE NOVICE AND STUDENT SECTIONS

Elke Fulton

Elke has worked with wood since she was a little girl when she carved a “six-gun” with her mother’s kitchen knife. It was for a marionette cowboy she made at school. In her teens she spent three years at Guildford School of Art in Surrey England, where she gravitated immediately towards wood sculpture.

After moving to Mornington Peninsula with her Australian husband, they raised two children, which did not leave much time for anything else. As they got older, she started doing carving again, and about eleven years ago went to an Exhibition of the Peninsula Wood Turner’s Guild. She was hooked immediately! What better combination could there be? After joining she was taught by the best, and since then woodturning has taken over somewhat.

Elke takes a great deal of pleasure working at a lathe both at home and at the Guild, and has combined both arts in a lot of her work. She likes helping other turners learn their craft, and feels honoured to be asked to help judge in this Prestigious Exhibition.

John McMahon

John McMahon has been turning, carving, and shaping wood since 1996. Based in Berwick, Victoria, he has exhibited regularly at the Australian Woodturning Exhibition and won a number of awards, including the Peter Robson Award. His work is featured in the permanent collection of the Australian Wood Design Exhibition. He has also been the featured wood artist at local and interstate private art exhibitions, and is featured in private collections internationally, including Canada, USA, United Kingdom, Italy, Norway, Denmark, Japan, China and New Zealand.

Andrew Potocnik

After 35 years working in the woodturning area I wear many hats. Primarily, I am a secondary school woodwork teacher, but I’m also a writer for magazines in Australia, the UK and the USA covering a variety of topics including how-to projects, product reviews, exhibition reviews and descriptions of places I’ve been lucky enough to visit.

My work is essentially lathe-based; however, I also carve, sculpt, texture and burn the hell out of pieces I’ve carefully manipulated into forms my mind has conjured up. All of this is influenced by cultural work I’ve seen in travels, techniques inspired by fellow woodworkers at collaborative events, magazine articles I’ve read and a lot of experimentation. Twenty-five years of teaching has presented me with a myriad of design problems developed by students, all of which have helped me in finding solutions to problems arising in my own work.

Life is a journey of exploration and learning all of which influences the work we create with the ultimate desire of creating that perfect piece!
